PROJECT EXPERIENCE

Innovait Technologies (6 Months)

- Developed a client website from concept to deployment, ensuring responsiveness and user-friendly design.
- Collaborated with designers and backend developers to integrate UI/UX elements and optimize performance.
- Implemented modern web technologies, enhancing site speed and functionality.
- Optimized performance, security, and SEO for better user experience and visibility.
- Managed testing, debugging, and deployment processes for a seamless launch
- Utilized modern web technologies (e.g., HTML, CSS, JavaScript, React, or relevant frameworks).

Project Work – Innovait Technologies (Tech Intern)

- Contributed to real-world client projects, involving front-end development, CMS integration, SEO optimization, and UI/UX enhancements.
- Raja Gulab – Supported e-commerce integration and product categorization for a spiritual goods platform, enhancing user flow and purchase efficiency.
- Central Pest Control India (CPCI) – Helped streamline service listings and built responsive layouts to improve accessibility across devices.
- WaveApps – Analyzed and suggested UI improvements for a financial services tool catering to small businesses.
- Cohere – Assisted in presenting AI platform services through a clean, modern layout and interactive content blocks.
- Innovait.in – Participated in internal website maintenance, AI services content updates, and design consistency.

Planzo Pvt. Ltd. (Sep 2025 - Present)

- Performed manual testing of web applications to ensure functionality, usability, and reliability.
- Designed and executed test cases, test scenarios, and test plans based on business requirements.
- Identified, documented, and tracked bugs and defects using structured reporting methods.
- Conducted functional, regression, smoke, and sanity testing across multiple modules.
- Collaborated closely with developers and product teams to understand requirements and resolve issues.
